

# TEYE MICHAEL

Software Engineer

## SUMMARY

Creative, detail-oriented, software engineer with a deep interest in Web Development . Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### Software Engineer at STOTTEN,

October 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

#### Recent Projects:

Presently my team and I are working on a software called INTERNSGH. INTERNSGH (Fullstack Web App) – Users can register or log in to their profile and find the list of all companies available. Users can select the companies they want to intern with, the system also allows users to create their resumes when applying for jobs. Recruiters can create an account for their company and provide slots on their dashboard, the system also allows recruiters to list out the number of employees or interns they want.

### Blueticks Technology- Fullstack Web Developer

January 2020 — April 2021

Created and maintained clear, concise project plans and developed strategies to meet deadlines.

Seeing through a project from conception to finish product.

Creating servers and databases for functionality.

## VOLUNTEERING

### IIPGH | Greater Accra, Accra

March 2022 — Present

Teaching children how to code, using software like code it, MIT App Inventor, and scratch.
